

# Mailbox Replacement

For those homeowners who may be interested in changing out their individual mailboxes, the Board has approved a locking mailbox, Large Size Black Lockable Post Mount Mailbox, manufactured by Mailsafe - Solar Group, Inc., Model #RSKB0000, and a non-locking mailbox. Both styles of mailboxes can be purchased at any Home Depot store. It is recommended that all homeowners who share mailboxes on one post, coordinate to replace all the same style of mailbox at the same time to standardize the appearance.

NOTE: It is necessary for homeowners who are changing to the locking style mailbox to have all the neighbors sharing the post make a change, as the horizontal post must be extended to accommodate the size of the mailbox.

Non-locking mailboxes located on Gabilan Road
